

handegolf

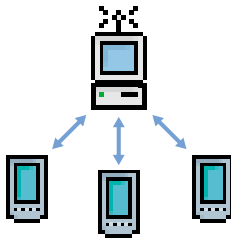

Organizing a golf tournament is not easy. In fact, it can be pretty rough. That's why we've created **handegolf™**. It simplifies a time consuming and tedious process, empowers all players with real-time scoring, and insures your next tournament is a wire-to-wire success. Extremely handy, indeed.

A GOOD APPROACH

Handegolf™ is an automated, interactive scoring system for golf tournaments. The software consists of two modules, which together create a complete solution that is efficient, exciting for players, and easy to use.

The first module runs on a PC and is used by tournament organizers to manage event pairings, handicaps, scoring, ranking, and statistics. The software automates many of the tasks necessary to keep a tournament running smoothly.

The second module runs on any PalmOS® compatible Personal Digital Assistant (PDA) and is carried by each group on the course. Golfers tap in their scores and the PDA transmits the data back to the PC. Players can track their own scores, as well as the scores of their competitors, in real time.

MANAGER BENEFITS

EFFICIENCY

Traditionally, managing a tournament involves many tasks, such as configuring the field and pairings, collecting scores, and reporting the leaderboard. In a multi-round tournament, this task is repeated many times. Handegolf was developed to reduce the time and effort involved in managing tournaments of any size. Automated tournament scoring eliminates human error and saves time as well as money. Scoring is immediate, simple and precise.

REPORTS & STATISTICS

Handegolf will help you plan the growth and development of your facility by collecting indispensable data on how your course plays, hole by hole. In addition, it will help you attract and retain players, because handegolf makes it easy to track stats like they do on the tour, including:

- All Around Leaders
- Driving Distance Leaders
- Scoring Leaders
- Driving Accuracy Leaders
- Putting Leaders
- Total Driving Leaders
- Eagle Leaders
- Percent of Sand Saves
- Birdie Leaders
- Percent of Greens in Regulation

PLAYER BENEFITS

EASE OF USE

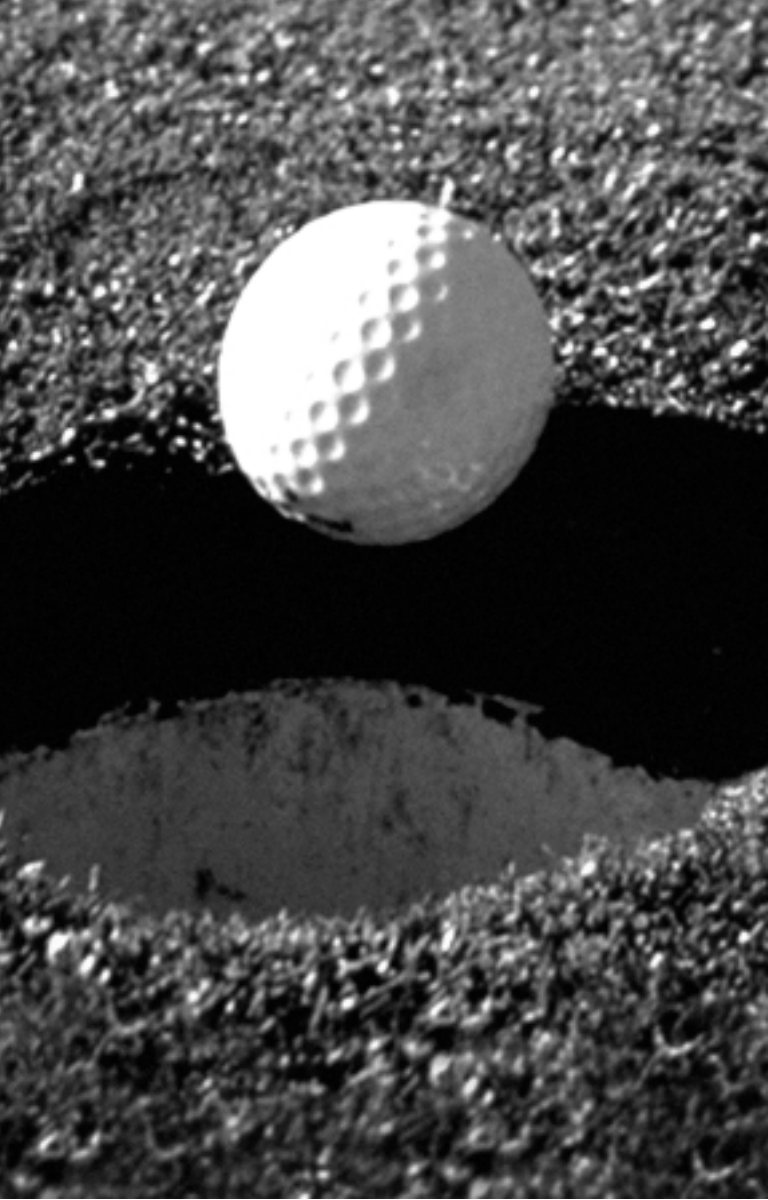

Handegolf is as easy to use as a pencil and scorecard. It has to be. Players simply tap the handheld to enter their score for the hole. Then, with the touch of a button, handegolf calculates up to the minute scores. It's that simple.

TOURNAMENT EXCITEMENT

Standings and scores for the tournament field are traditionally unavailable during amateur events – forcing golfers to play unaware of how they stand against the competition. With handegolf, scoring information for the field is available to all players at all times. Players can adjust their game plan based on up to the minute info. Lay up or go for the green. They decide using real-time scores and standings.

MULTIPLE FORMATS

Handegolf gives golfers options by supporting many individual and team formats. No more math problems to solve on the course. Whether tallying Gross, Net, Team Games, Match Play, or Stroke Play, handegolf supports the format and gives players immediate results.

A GIMME PUTT

We designed handegolf to work well out of the box, so you don't have to spend a lot of time learning new information. If you want to see how simple it really is, just give us a call. Your questions will be answered clearly. In plain English.

Once you've decided to implement the system, getting equipped with handegolf couldn't be easier. We'll work with you to handle all of the details, from first round, to moving day, to the trophy presentation. And you can customize the system based on your individual needs. We're pretty sure you'll see what we're so excited about.

HATCHING AN IDEA

After 10 years of organizing numerous tournaments, leagues, outings, and tours, the founders of Mother Hen Software set out to develop an automated scoring and statistics solution to improve their tournament management. Their passion for the game and invaluable experience are the core of what makes handegolf such a useful tool.

Mother Hen Software has offices in Michigan and Texas. If you would like to talk with us about using handegolf to manage your next tournament, please contact us at the following location:
